
Addressing the Social Determinants of Health Needs of Dual-Eligible Beneficiaries

Friday, June 26

3pm ET

Association for Community Affiliated Plans

Strengthening the Safety Net Since 2000

Overview

- ACAP's 23 D-SNPs predominantly serve full-benefit dual-eligible beneficiaries, whose care is often complicated by social determinants of health (SDOH)
- With funding from Arnold Ventures, ACAP is working with CHCS to:
  - Study the SDOH needs of the dual-eligible beneficiaries enrolled in ACAP's D-SNP member plans and identify gaps in SDOH services, and
  - Identify policy options for Medicare to finance SDOH services through D-SNPs
- Results of this work will be released in the Fall
