Medical providers

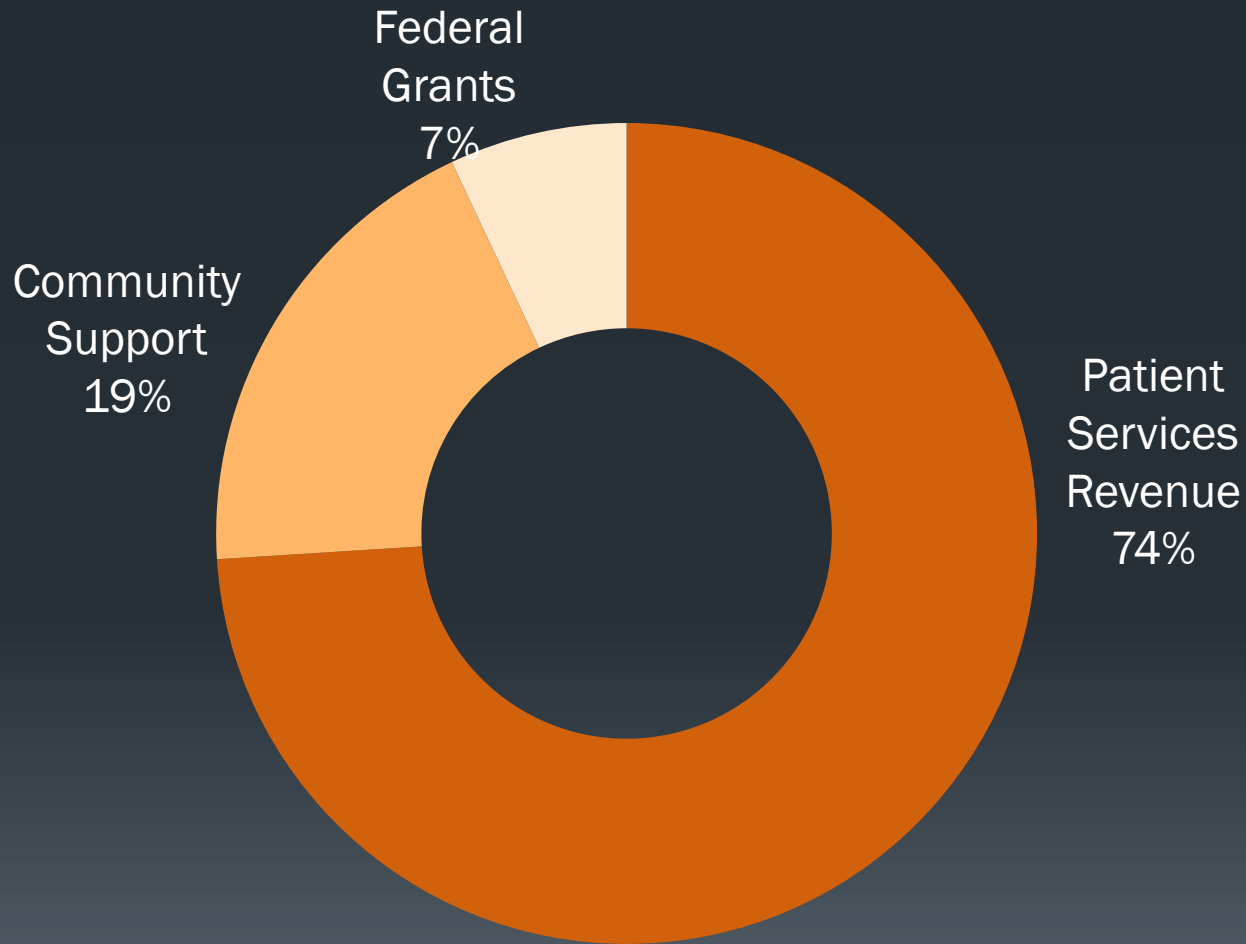

7 Dentists

Our Patients

90% patients are low-income
1 in 10 community members are patients

Funding Sources

Healthcare Need in Santa Barbara

Over 23,000 South Santa Barbara County residents still do not have a medical home

About 2,000 people in the Westside do not have access to a medical provider

Almost 1,500 patients must travel to our Eastside Family Dental Clinic due to lack of dentists on Westside

Collaborations

CenCal HEALTH®
Local. Quality. Healthcare.

Collaborations

- Summer of 2016 - the organization was awarded a HRSA Substance Abuse Expansion Grant
- Goal - Full integration of behavioral health with primary care, including SBIRT and MAT
- Every patient over the age of 11 - screened annually for substance use disorder and major depressive disorder
- Collaborations are in place with CADA and Sanctuary Centers
- Five providers with DATA 2000 waivers are actively engaged in MAT to those individuals for whom that tool is indicated.

Collaborations

- **CALM** - pilot project to identify families at risk for Adverse Childhood Experiences (ACEs).
- Children will be screened during their routine “well child” visits by their pediatrician.
- Those found to be at risk will be directed toward resources at **CALM** designed to ameliorate the risk of trauma to the child.

Collaborations

- La Cumbre Junior High
- Harding Elementary School

Collaborations

- **Cancer Center of Santa Barbara** - SBNC dental staff provides immediate access to individuals diagnosed with cancer prior to their starting medical or radiation treatment.
- SBNC received a grant from the **Cancer Foundation of Santa Barbara** for a cancer navigator position

Collaborations

- Sansum Diabetes Research Institute

- A three way collaboration involving the **DRI**, SBNC and the **Santa Barbara Food Bank**
 - Screens patients at the Food Bank for diabetes mellitus.
 - Prediabetes and frank diabetes - provided education and diabetic appropriate food and are referred to SBNC for medical care.
- Mil Familias - SBNC to provide medical services in a large prospective study to one thousand Latino families who will be followed for several years

What's Next

A Healthy Community
for Us All

Campaign Goal

To meet the tremendous need and make our vision a reality, SBNC is embarking on a comprehensive campaign to invest in a state-of-the-art clinic on the Westside of Santa Barbara and fund ongoing operational and facility needs that will allow us to serve thousands more people who currently lack care throughout our community.

This presents a unique opportunity for you to share in our vision by investing in the health of our entire community.

Summary

- Santa Barbara Neighborhood Clinics
 - Emerged from a near fatal fiscal crisis five years ago
 - Now a model for the community in the delivery of high quality medical care at a low cost.
 - Now viewed as an essential element in the design and development of the health delivery platform for Santa Barbara County.
 - SBNC is ideally situated to not only provide high value care to its own patients but to lead the entire delivery system in a collaborations to improve the health of all the residents in southern Santa Barbara County.
